CLASS-1

13.10.20

Let’s work more on

LENGTH & WEIGHT CONCEPTS !

Look at this pan balance:

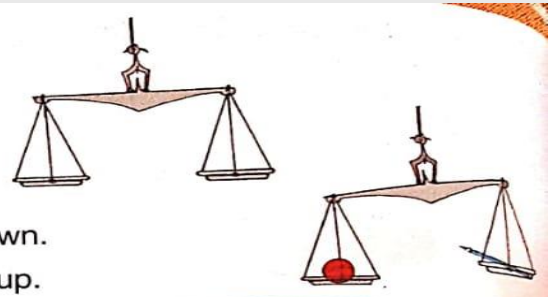
It has 2 pans.

Here is a ball in one pan and a pencil in another pan.

What do you notice?

The pan with the ball goes down.

The pan with the pencil goes up.



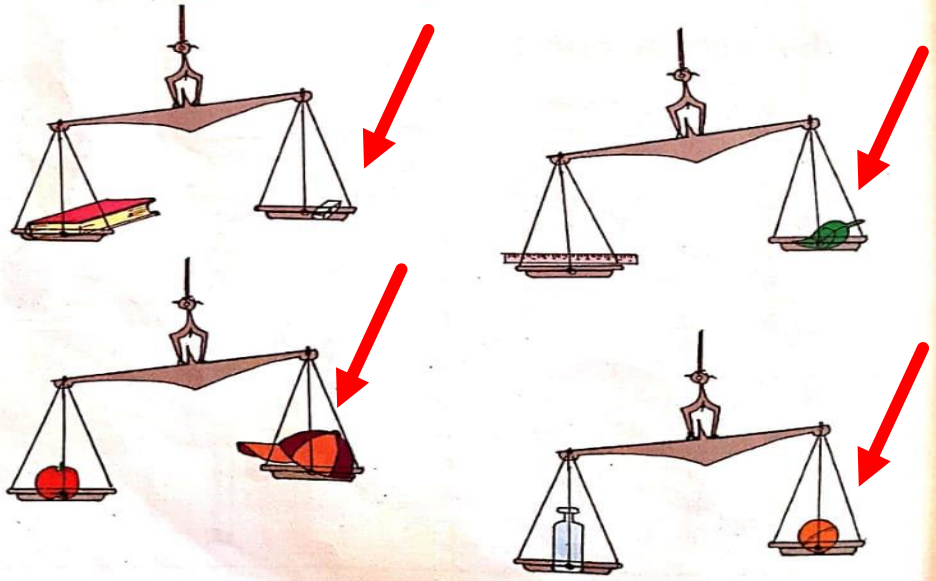
The ball is heavier than the pencil.

or

The pencil is lighter than the ball.

Look at the following pan balances.

Tick (✓) the objects that are lighter.



Lighter

Circle the things that are heavier.

FILL IN THE BLANKS.

Hand span | Foot span | length | distance | cubit

1. The word _____ is used to measure how long an object is.

2. Length is used to measure the _____ between your home to school.

3. We can use hand span, foot span, and _____ to measure smaller lengths.

4. _____ is the distance from the tip of the thumb to the tip of the little finger.

5. _____ is the distance from the tip of the toe to the heel of the foot.

Well Done !
